

The Petzl EXO gets them home.

Our training ensures it.

Revac-USA is ready to train your firefighters to take advantage of the newest self-rescue technology available, the **Petzl Exo** (tm). This superior technology allows for rapid evacuation of a compromised structure, saving lives and keeping firefighters healthy in the process.

The key to effective usage of the Exo is training. At Revac-USA we possess a skill set unmatched in the world of safety-preparedness. Our expert qualifications are built on years of experience in the realms of the *fire service, military* and *S.W.A.T.*

Let our experience become your experience. Contact Revac today to set up your training. Together, we'll provide your firefighters yet *another way out.*
